

AYUSH NEMA

+91 9407004701 | nemaayush22@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer skilled in React.js, Next.js, and Node.js. Experienced in RESTful APIs, JWT authentication, and real-time apps. Currently interning at Techwalaa building a vendor management product.

TECHNICAL SKILLS

Languages: C, Java, JavaScript, SQL

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap, Redux Toolkit

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, WebRTC, Socket.io

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Multer, PDFKit

PROFESSIONAL EXPERIENCE

Web Development Intern | Techwalaa

Feb 2026 - Present

Delhi, India (Remote) | Next.js, React.js, Node.js, MongoDB, Tailwind CSS

- Developing a vendor management dashboard product enabling vendors to manage their shop, inventory, and operations through a modern web interface built with Next.js and React.js
- Building responsive and high-performance UI components with Tailwind CSS, improving page load efficiency and user experience across devices
- Integrating RESTful APIs for real-time data synchronization between vendor dashboard and backend services using Node.js and MongoDB

Front-End Software Engineering Job Simulation | Skyscanner x Forage

Nov 2025

Virtual | React.js

- Completed practical front-end engineering tasks simulating real Skyscanner developer workflows
- Built a Backpack React Web App using Skyscanner's open-source design system, implementing reusable UI components

PROJECTS

Social Media Web Application

[GitHub](#)

Next.js, React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Multer, PDFKit

- Developed a scalable full-stack social media platform with Redux-based global state management, enabling user discovery, connections, and interactive engagement through likes and comments
- Built secure RESTful APIs with JWT authentication, implementing ownership validation and middleware-driven access control to protect routes and maintain data integrity
- Implemented dashboard and profile features including post management, work experience tracking, resume generation with PDF download (PDFKit), and secure media uploads using Multer

Video Conferencing Web Application

[GitHub](#)

MongoDB, Express.js, React.js, Node.js, WebRTC, Socket.io

- Developed a real-time peer-to-peer video conferencing application with live audio/video calling, screen sharing, and real-time chat functionality
- Integrated WebRTC-based communication with Socket.io signaling for low-latency streaming and meeting event management
- Implemented JWT-based authentication for secure user login and authorized access to meeting rooms

WanderLust - Travel Stay Listing Platform

[GitHub](#)

Node.js, Express.js, MongoDB, EJS, Bootstrap, Joi, Multer

- Built a full-stack travel stay listing platform inspired by Airbnb, enabling users to create, view, update, and delete property listings with complete CRUD functionality
- Designed RESTful APIs for listing management and integrated Joi-based validation with centralized error-handling middleware for robust data integrity
- Developed responsive user interface using Bootstrap with secure media upload support via Multer

EDUCATION

Baderia Global Engineering College, Jabalpur

2023 - 2027

Bachelor of Technology in Computer Science and Engineering
